

3.47 Writing questions

<p>Topic: Plants Subtopic: Habitats Activity type/skill: Question forms Literacy focus: Writing Genre: Questions</p>

Objective

- Apply knowledge of question forms to their school lives.
- Become conscious of question forms.

What you need

- Student worksheet (see next page)

What to do

1. Ask the students to bring some science textbooks and/or worksheets to class or provide them yourself. The books and worksheets must include activities using question forms.
2. Look at the student worksheet and explain to students they need to find the different questions in the text and write them on the worksheet in the appropriate boxes. (Don't ask the students to answer the questions but ask 'What sort of answer do they expect?', for example, a reason, yes or no.)
3. Discuss any other question forms they find and add them at the bottom of the page.
