

Tony's Spelling Troubles

Tony wanted to become a better speller so he kept a record of the time he spent learning his words each night. He also asked his mum to test him every day and keep a record of the words he got correct.

Pretend you are Tony's 'Homework Doctor,' and examine his charts for the last two weeks. What do they tell you about Tony's homework patterns? Can you think of any advice to give him so he gets all words correct?

Write Tony a letter giving your prescription for better spelling.
